eZZi-Lift™ Facial Device

eZZi-Lift™ Facial

Facial Kit

eZZi-Lift™ is an electro-stimulation device used for the face and neck to reduce the appearance of fine lines and wrinkles. The eZZi-Lift™ rejuvenates the face naturally by gently stimulating the skin's own production of collagen and elastin. Convenient at-home treatments are non-invasive and improvement is noticeable after the very first treatment. Results last 7 to 10 days depending on technique applied.

Kit includes: eZZi-Lift™ Facial Massager, Flexible Blue Electrode, Pencil Electrode (angle head), two wires and case.

NO REFUNDS. NO RETURNS.

\$495.00 (plus tax & S&H)

The eZZi-Lift™ devices are not medical therapy devices. eZZi-Lift™ devices are for cosmetic use only and are NOT a Tennant BioModulator®.

This device is a special order item and has a no return/refund policy.

WELLNESS BLANKET

An Astronaut Suit in a Blanket

What is the Wellness Blanket?

- In the 1960's a team of Russian doctors and scientists discovered the cosmonauts' vitals greatly improved and balanced while wearing their protective suits in space.
- These suits incorporated the use of energy reflecting materials including palladium.
- Using this space-age material, the powerful Wellness Blanket was created.
- The layers of energy-reflecting material restore the body's lost infra-red and extra-high emissions to itself, much like a gentle infra-red sauna.

What does the Wellness Blanket do for me?

- Relieves pain and stress
- Slows down the aging process
- Protects from harmful EMF exposure
- Helps correct body imbalances, normalizing pH, and increasing voltage
- Balances and restores acupuncture meridians and acupuncture points.
- Increases performance, energy, and improves sleep
- Supports the immune system against viruses

Who can especially benefit from the Wellness Blanket?

- Anyone with a stressful and busy job
- Athletes to maximize performance and speed up recoveries from injuries
- Veterinary use: reduces pain and calms dogs, cats, and horses
- Small children and elderly people who are exposed to EMF's

ACUPUNCTURE MUSCLE BATTERIES BY DR. JERRY TENNANT

Every cell and every organ requires voltage to work and to replace itself. Muscles are like rechargeable batteries that are stacked like batteries in a flashlight to create a power pack for each organ. These stacks of muscle batteries are what are known as acupuncture meridians. When voltage drops, organs can't function normally or make new cells to maintain them. Chronic disease occurs when the body loses the ability to make new cells. Determining why the battery pack (acupuncture meridian) cannot hold a charge is key to curing chronic disease. This atlas is key to understanding the causes of chronic disease.

CANCER'S ON/OFF SWITCHES: POLARITY BY DR. JERRY TENNANT

Dr. Tennant's new book is groundbreaking work on how cancer occurs. Dr. Tennant shows how cancer is not caused by mutated genes. Rather it is caused when the "switch" is flipped by the accumulation of enough electron stealers to flip the polarity in an acupuncture muscle battery system. Dr. Tennant explains this concept in detail with extensive citation of the medical literature and discussion of the many electron stealers involved with cancer.

HEALING IS VOLTAGE 3RD EDITION BY DR. JERRY TENNANT

Every cell in the body is designed to run at -20 to -25 millivolts. To heal, we must make new cells. To make a new cell requires -50 millivolts. Chronic disease occurs when voltage drops below -20 and/or you cannot achieve -50 millivolts to make new cells. Thus chronic disease is always defined by having low voltage. This book tells you how to measure your voltage in each organ, how to correct it, and how to determine why your voltage dropped enough to allow you to get sick. A tireless researcher and medical practitioner, Dr. Tennant has been on a lifelong journey to find better ways to have and enjoy a healthy lifestyle. Whether you suffer from a chronic illness and have intractable pain, are a healthcare provider that wants to do more for your patients, or are in pretty good health and want to stay that way, this book was written for you!

THE STATIN DISASTER

BY DR. DAVID BROWNSTEIN

Statins are the most profitable drugs in the history of Big Pharma. Statins fail to prevent or treat heart disease for almost everyone who takes them. And, they are causing more harm than any other class of medications. In fact, statins are effective for approximately 1% who take them. In other words, statins fail 99% who take them.

Cholesterol is not a harmful substance. In fact, it is an essential substance that is needed by every cell in the body. We cannot live without adequate amounts of cholesterol. Dr. Brownstein will show you why the cholesterol = heart disease hypothesis is a failed paradigm.

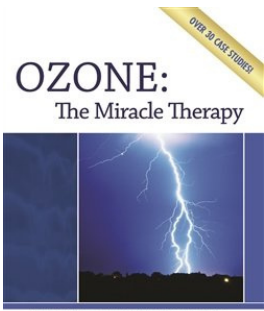

Statins are associated with a host of serious adverse effects including ALS, breast cancer, cancer, congestive heart failure, kidney and liver damage, memory problems, muscle weakness, neurological disorders such as Parkinson's disease and thyroid disorders.
